Col-Col Exchange: Experiences in Climate Change Advocacy by Children, Adolescents, and Youth (CAY)

October 14-15
Cali, Valle del Cauca

The objective is to strengthen participatory territorial advocacy processes in climate change led by children, adolescents, and youth within the framework of the COP 16 and 17 on Biodiversity and COP 29 on Climate Change.

This exchange is aimed at children, adolescents, and youth between 8 and 25 years old who are leading territorial advocacy processes on climate change and biodiversity conservation. Closed call.

Investment and Philanthropy

A Look at Our Seas
October 27
Cali, Valle del Cauca

This activity will provide a space to promote sustainable development in the Colombian Pacific region. Various public and private local actors will present their most strategic socio-ecological and energy transition projects in their territories. The structuring of these projects has been developed with the support of the National Government, WWF, and the Baobab Innovation Center.

The roundtable will be a closed event. Due to space constraints, invitations will be limited to cooperation agencies, philanthropic foundations, impact investors, and local and national authorities who are already leading innovative, systemic, and sustainable development projects in the Colombian Pacific region.

Other Highlighted Events

Presentation of Herencia de los Ríos- Petronio Álvarez Festival

**Date to be confirmed*
